Greg Harris Harris

Full Stack Web Developer

Full-stack Web Developer with a background in digital artwork and graphic design who recently finished a certification through the University of Washington. Coding experience using languages like HTML, CSS, JavaScript, Python, and technologies like React and Node. Strength is with backend web development, building out and maintaining databases. Work history with retail and customer service, provided for operating well with a team, mentorship, goal setting, and ability to delegate tasks to ensure project completion. Passionate about incorporating creative and artistic abilities to design logos, layouts, and frameworks for various web applications.
